Where Vision Turns Into Reality

We advance our products for our customers and their patrons. We're not about innovating for innovation sake or aim to be first for the bragging rights.

There will always be another way to improve the user experience and maximize the restroom space. We've solved those scenarios in the past (quieter, faster dry time, ergonomic design, ADA compliant and hygienic). We know we'll do it again and outsmart our previous solutions.

Our vision becomes a reality once it's in arm's reach for you and your users.

VERDEdri®

The Power of Efficiency

VERDEdri works up to its name – delivering high performance with less power. It dries hands clean in as little as 12 seconds, using only 950 watts. Its quiet, high-speed operation is matched with a NiChrome wire heating element and a touchless infrared sensor. Users can go through the motions without pressing a button or feeling cold air. The adjustable two speed motor controls, global universal voltage features, and virtually indestructible construction accommodate any commercial restroom.

-  Surface-mounted ADA compliance ensures accessible pathway
-  Fast performance dries hands in as little as 12 seconds
-  HEPA filtration and antimicrobial technology enhance sanitation
-  Two speeds adjust to control airflow and sound level
-  Universal voltage accepts 110-240 V input
-  Motor lasts up to 3 times longer than comparable models

SMARTdri®/SMARTdri® Plus

Speed That's Smart

For those who want it all in a simple design, SMARTdri is a wise choice. It dries hands in as little as 10 seconds. It's energy efficient, durable, hygienic, and flexible. Users appreciate the antimicrobial technology, warm air flow, and quiet sound quality. Facility managers appreciate flexibility with control options suitable for any environment. And while it may be compact, you can expect it to withstand a high-demand environment.

-  Fast performance dries hands in as little as 10 seconds
-  Advanced technology uses up to 80% less energy than conventional models
-  Hygienic antimicrobial technology enhances sanitation
-  On/off heating and three speeds control sound, comfort, and efficiency
-  Single-port (SMARTdri Plus) or multi-port nozzle (SMARTdri) accommodate ranging air dry preferences
-  Motor lasts up to 3 times longer than comparable models

VMax® V2

Enhances the User Experience

The renovated VMax V2 now lasts two times longer thanks to its new brushless DC motor. Its vertical hands-in drying cavity is 25-percent wider than the competition. It also includes a water tray to keep water from pooling on the floor. The smart LED display indicates when it's time to empty the water tray and change the HEPA filter. It's a low maintenance solution for you and your employees and a highly hygienic hand dryer for all users.

25% wider drying cavity creates a more comfortable user experience

Surface-mounted ADA compliance ensures suitable pathway

HEPA filtration and antimicrobial technology enhance sanitation

Dedicated reservoir collects residual water to prevent wet floor hazards

LED display signals when filter should be changed for easy, sanitary maintenance

Quiet operation performs at a lower sound level than comparable models

Change of Space

For parents in transit, install convenience and stability in your environment. Your customers will appreciate a private, secured place to change their child, tucked away from foot traffic and positioned at an accessible height.

-  Polyethylene interior makes it easy to clean and maintain
-  Safety belt adjusts with one hand for a quick change
-  Built-in liner dispenser delivers sanitation from change to change
-  Bag hooks on both sides offer convenience
-  Mounting options allow for installation in ranging environments
-  Design folds shut to optimize space and latches without falling open

Make it a Good Hair Day

Post shower or swimming, hair dryers are a must for locker rooms, campsites, and schools. Don't dampen the mood by overlooking the need for hair dryers. Instead, keep your patrons happy with hair dryers on the spot. They'll have a good hair day and be on their way.

-  Push button puts control in the users' hands
-  80-second operation gives enough time between drying and styling
-  Durable construction withstands vandalism and years of use
-  Mounting options allow for installation in ranging environments

American Dryer®

All American, All Applications

American Dryer considers the environment with every design, whether it's using less energy or eliminating paper towels. That's because, it matters just as much what goes into our customers' businesses, as what goes out. You'll realize less maintenance, longer product life, and lower costs due to our mindful features.

ADA Compliant Wall Guards and Recess Kits

ADA compliant wall guards and recess kits ensure ADA compliance in pathways. ADA wall guards complement surface-mounted dryers with the simplest solution to accessibility compliance. Where recessed mounting is preferred, durable brushed stainless steel recess kits are available for popular models.

Retrofit Kit

Retrofit kit aesthetically covers a recessed World Dryer Model A or Model M Airmax box that you want to convert to a surface mount dryer. A bracket and cover plate (pre-set up for a World Dryer SLIMdri) are included for a jiffy upgrade.

MODEL FAMILY	ACCESSORY	FINISH	MODEL #
SLIMdri	Retrofit Kit	Stainless Steel, Brushed	17-10160K

Adaptor Kit

Make installing your new hand dryer a breeze with this adapter kit. It's compatible with VERDEdri hand dryers and an ideal solution when top-entry electrical connections are required.

MODEL FAMILY	ACCESSORY	FINISH	MODEL #
VERDEdri	Adaptor Plate	Stainless Steel, Brushed	17-10310k

Note: To meet ADA requirements when installed with the top entry adapter, do not install in walks, halls, corridors, passageways or aisles.

Adaptor Plate

Ready to upgrade your paper towel dispenser or old hand dryer? This stainless steel adapter plate makes it simple and makes a statement. Large enough to cover your former equipment, you'll achieve a cleaner and more comfortable environment for guests and customers, while reducing moisture and wall drips.

MODEL FAMILY	ACCESSORY	FINISH	MODEL #
American Dryer	Adaptor Plate	Stainless Steel, Brushed	AP

Bed Liners for Baby Changing Stations

A little extra care goes a long way for little ones. Sanitary bed liners help shield baby from germs and fit conveniently in the built-in liner holders on each unit. Comes in a box of 500 for more diaper changes and less maintenance change outs.

HEPA Filtration System Replacement

HEPA filtration systems remove 99.97% of particles at 0.3 microns or larger from the air in the room. Maintain your hand dryer and promote sanitation by replacing your filtration system regularly.
